The **TrailManor 2720 Series** has become our most popular model series for good reason: All of TrailManor's unique benefits shine through in these trailers.

You don't have to have a big tow vehicle—you can tow these trailers with a properly equipped minivan crossover or SUV. The 2720 Series trailers store easily in a standard size garage. You can set up these units in just two minutes and unlike a tent camper you can even do it in the rain without everything inside getting wet.

Towing is virtually effortless and it only takes one extra gallon of gas to tow these trailers 100 miles. Better yet there are great amenities such as a hardwall bathroom with shower and tub a full kitchen and great floorplan choices so you can pick what interior environment best suits your vacation lifestyle.
