SELLING FEATURES

*This unit is on order, some options and colours may vary from the pictures shown.

The SQ825 is the epitome of practicality and comfort in budget-friendly truck campers. This popular Lance model is now available as a simplified and lighter offering in the Squire product line.

As you enter this rear entry layout, you will find a large cabinet storage space on your left and a full stand-up wet bath on your right. Midship, the camper opens up to an attractive dinette space that converts into an extra bed, located opposite a spacious galley designed specifically for this type of camper. Overhead storage is found throughout and extends into the cabover, where you also have a real queen-size bed.

The SQ825 is highlighted by all of the precision and quality that Lance Mfg Co. is known for. The new Squire SQ825 features are ideal for those seeking a balance between affordability and functionality. Lance CNC and composite construction are combined with tried-and-true components like glass windows and modular lightweight load-carrying equipment cabinetry panels.
